

RESOURCE

A Guide to Gender-Responsive Budgeting

|

Description / Abstract

A gender-responsive budget is a budget that works for everyone (women and men, girls and boys) by ensuring gender-equitable distribution of resources and by contributing to equal opportunities for all.

Gender-responsive budgeting is essential both for gender justice and for fiscal justice. It involves analysing government budgets for their effect on genders and the norms and roles associated with them. It also involves transforming these budgets to ensure that gender equality commitments are realized.

These resources are designed to show how different actors can influence the budget cycle to promote gender-responsive budgeting at its different stages. It is intended to help groups developing strategies to think through the actions to take at each stage of the government budget process.
