

RESOURCE Integrating Green and Gray: Creating Next Generation Infrastructure

L

Author(s)

Browder, Greg Ozment, Suzanne Bescos, Irene R. Gartner, Todd Lange, Glenn-Marie

Description / Abstract

Integrating nature into mainstream infrastructure systems can produce lower cost and more resilient services. This report guides developing countries service providers and their partners on how to seize this opportunity. It reviews approaches and examples of how to integrate green infrastructure into mainstream project appraisal processes and investments.
